*** ANNOUNCEMENT ***

--U.S. Patents Fulltext (File 654) has been redesigned with
new search and display features. See HELP NEWS 654 for
information.

--Dialog NewsRoom is now available. BEGIN NEWSROOM
to use the files in a OneSearch. See NEW FILES RELEASED
(below) for individual file numbers.

--Connect Time joins DialUnits as pricing
options on Dialog. See HELP CONNECT for
information.

--CLAIMS/US Patents (Files 340,341, 942) have been enhanced
with both application and grant publication level in a
single record. See HELP NEWS 340 for information.

--SourceOne patents are now delivered to your
email inbox as PDF replacing TIFF delivery.
See HELP SOURCE1 for more information.

--Important news for public and academic
libraries. See HELP LIBRARY for more information.

--Important Notice to Freelance Authors--
See HELP FREELANCE for more information

For information about the access to file 43 please see Help News43.

NEW FILES RELEASED

***Dialog NewsRoom - Current 3-4 months (File 990)

***Dialog NewsRoom - 2001 Archive (File 994)

BroadVision Joins V-Commerce Alliance

PR NEWSWIRE

October 06, 1998

JOURNAL CODE: WPRW LANGUAGE: English RECORD TYPE: FULLTEXT

WORD COUNT: 668

BroadVision to Collaborate with **Nuance** to Speech-Enable One-to-One Applications NEW YORK, Fall Internet World '98, Oct. 6 /PRNewswire/ -- **Nuance** Communications today announced that **BroadVision**, Inc. (Nasdaq: BVSN) has joined the V-Commerce(TM) Alliance, a group of technology vendors and systems integrators that are collaborating with **Nuance** to make it easier to build and deploy V-Commerce applications. These applications use natural language speech recognition to perform self-service transactions over the telephone and other connected devices. **BroadVision** and **Nuance** will work together to integrate the **BroadVision** One-To-One(TM) family of Internet applications with **Nuance** SpeechObjects(TM), reusable components for rapid development of V-Commerce applications. The combined solution will provide personalized business-to-consumer services over the telephone, complementing **BroadVision**'s strength in Web enabling such services. This will enable companies to use **BroadVision** One-To-One for both Web applications and speech-enabled telephone applications, extending the benefits of personalized services to 800 million telephones and other connected devices. "We look forward to a very productive collaboration with **Nuance** and other members of the V-Commerce alliance," said Dr. Pehong Chen, president and CEO of **BroadVision**, Inc. "As the leading supplier of Web-based self service applications for one-to-one marketing, selling and customer service over the Internet, we see adding telephone access as a natural extension of that process. The combination of **BroadVision** and **Nuance** offers a unique value proposition to companies that want to provide their customers with self-service transactions from the most convenient device, whether it be a Web browser or a telephone." " **BroadVision** One-To-One Internet applications will add a new level of personalization to over-the-phone transactions with speech interfaces," said Ronald Croen, president and CEO of **Nuance** Communications. " **BroadVision**'s leadership in both the electronic commerce and financial services markets has resulted from its pioneering work in proving the value of one-to-one marketing and self-service transactions over the Web. By adding our natural language speech recognition to the **BroadVision** One-To-One family of products, **BroadVision** will enable Global 2000 companies to offer even greater customer service and maintain greater competitive advantage." About the V-Commerce Alliance The V-Commerce Alliance includes leading technology software, services and infrastructure companies that are working with **Nuance** to build and deploy V-Commerce applications. In addition to natural language speech recognition, V-Commerce applications will typically include e-commerce and application servers, packaged applications and telephony hardware and software. For more information, see the V-Commerce Web site at <http://www.v-commerce.com> or try out V-Commerce applications at 1-877-TRY-VCOM. About **BroadVision**, Inc. Founded in 1993, **BroadVision**, Inc. (Nasdaq: BVSN) is the leading worldwide supplier of Internet applications for one-to-one relationship management across the extended enterprise. These end-to-end solutions enable companies to rapidly deploy and cost-effectively operate secure, scalable, intelligent, and flexible electronic business and knowledge management applications for the financial services, retail/distribution, high technology, telecommunications, and travel/leisure industries. **BroadVision** is headquartered in Redwood City, Calif. The company can be reached at 650-261-5100 or on the World Wide Web at <http://www.broadvision.com>. About **Nuance** Communications Named one of Upside's Hot 100 Private Companies and Red Herring's Top 50 Privately Held Companies, **Nuance** Communications develops natural language speech recognition and speaker verification software for V-Commerce and enhanced network services applications. The company's products enable anyone to gain access to information and services and complete transactions using everyday

conversational language. Headquartered in Menlo Park, California, the company focuses on customer service applications in call centers, particularly within the financial services and travel industries, and on enabling enriched functionality and new services in telecommunications networks. For more information, see **Nuance**'s Web site at <http://www.nuance.com> or call (650) 847-0000. **Nuance**, V-Commerce, and SpeechObjects are trademarks of **Nuance** Communications. **BroadVision** and One-To-One are trademarks or registered trademarks of **BroadVision** Inc. in the United States and other countries. /NOTE TO EDITORS: For more information on V-Commerce, please see the October 6, 1998 release entitled, "Motorola, Visa, **BroadVision** and Others Join **Nuance** to Introduce V-Commerce." /CONTACT: Janine Kromhout of **BroadVision**, Inc., 650-261-5940, jkromhout@broadvision.com; Todd Berkowitz of **Nuance** Communications, 650-847-0000, toddb@nuance.com; Carole Sinclair of Capstone Communications, 510-428-4100, ext. 203, csinclair@capstoneco.com; or Seth Markowitz of PR@dvantage, 415-288-0400, or seth@pr-vantage.com/ 13:00 EDT

**VeriFone Offers Merchants Cost-Effective Access to Highly Secure Online
Payment through ISPs; ISPs Gain Increased Revenue Opportunities with
VeriFone Offerings**

BUSINESS WIRE

September 28, 1998

JOURNAL CODE: WBWE LANGUAGE: English RECORD TYPE: FULLTEXT

WORD COUNT: 954

SAN JOSE, Calif.--(BUSINESS WIRE)--Sept. 28, 1998--To enable the growing number of merchants going online this year, VeriFone, Inc. the leading global provider of secure electronic payment solutions and a wholly owned subsidiary of Hewlett-Packard Company, announced today an aggressive strategy, products and programs designed to empower Internet Service Providers (ISPs) to deliver cost-effective, convenient and highly secure payment solutions to merchants. The VeriFone merchant payment solution brings ISPs significant revenue opportunity with an ability to control the quality of their payment services. With Internet commerce poised for massive growth and more consumers going on-line, merchants are demanding visibility in this exploding virtual marketplace. However, only 2.4% of small businesses will establish their own Internet commerce solution by 2002, according to a May 1998 Forrester study, leaving the other 97.6% to look for hosted solutions and other services. Hosting services are emerging as an easy and cost-effective solution for merchants of all sizes to launch Internet storefronts. To help ISPs serve this market, VeriFone is now delivering vPOS(tm) (virtual point of sale) 4.0 merchant payment software with a hosting capability and has developed a vPOS Hosting Program and key industry alliances. With VeriFone's solution, ISPs can now provide merchants with turn-key payment solutions that complement and add value to their current solutions. "By partnering with an electronic commerce leader like VeriFone, ISPs have the opportunity to assist merchants of all sizes in conducting business on the Internet," said Elizabeth Ames, general manager, Internet Merchant Market Division for VeriFone. "Our established relationships with the world's leading financial institutions, our trusted payment products and alliances with other leaders in electronic commerce offer merchants an integrated solution for a seamless transition to go online." "Many of our customers are attracted to the cost benefit associated with outsourcing mission-critical e-commerce and enterprise application services to service providers," said Nigel Ball, general manager of HP Internet and Applications Systems Division. "These customers also see service providers as an alternate channel for quickly obtaining the new value-added Internet and IT solutions that will help them efficiently outsource and grow their businesses. VeriFone's secure payment solutions offer new opportunities for service providers to deliver industry-leading, value-added solutions for e-business storefronts to HP's small business and large enterprise customers." VeriFone and Partners To bring merchants complete, secure and convenient solutions for online payments, VeriFone has formed relationships with financial institutions, service providers and other Internet commerce leaders including HP, **BroadVision**, iCAT, Information Builders, INTERSHOP, Microsoft, Open Market, Oracle and VeriSign. About vPOS Hosting Software Value Proposition VeriFone's vPOS Hosting Software provides ISPs with a comprehensive suite of Internet payment software and the ability to provide hosting capabilities for multiple merchants. vPOS 4.0 enables ISPs to directly control the quality of their Internet payment service while also generating recurring revenue. Additional value propositions include: - support of both Secure Sockets Layer (SSL) and SET **Secure Electronic Transaction** payment security protocols - joint marketing opportunities with VeriFone, HP and leading financial institutions - potential to leverage VeriFone's established relationships with financial institutions worldwide - integration with Internet products from leading software companies About VeriFone vPOS Hosting Program To provide complete Internet commerce solutions, hosting services need to offer bona fide Internet payment. This payment software must facilitate the processing of financial transactions

over the Internet safely and conveniently for both consumers and merchants. To meet these requirements, VeriFone is now offering the vPOS Hosting Program, which includes a comprehensive set of products and services. - vPOS Hosting Software provides access to major financial institutions throughout the world and communicates directly with financial institutions to obtain authorizations and process payments using both the **SSL** and SET security standards. - VeriFone also offers a broad range of services specifically for ISPs, including integration and technical support, training courses, merchant lead generation programs, VeriFone Exchange developer program membership and on-going communications and programs. About vPOS 4.0 VeriFone vPOS 4.0 merchant payment software allows hosting services to offer Internet merchants the same reliable and secure payment capabilities that "physical world" merchants already receive from VeriFone. vPOS supports a full range of standard transactions including authorization, credit, reversal, void and capture - as well as a number of specialized features such as recurring payment, installment payment, split shipment and purchase cards. vPOS supports both **SSL** and SET security protocols. In addition, vPOS Hosting Software enables the hosted merchants to remotely manage their financial transactions and generate reports - at their convenience - using their web browser. Pricing U.S. pricing for the vPOS Hosting software is comprised of a one time site license fee and monthly per merchant fees. U.S. pricing starts at \$6,395 for the site license and \$10 for the monthly per merchant fees. Availability vPOS Hosting software for the HP-UX and Windows NT platforms is available today. vPOS software for the Sun Solaris platform will be available calendar Q4 1998. VeriFone, Inc. VeriFone, Inc. (<http://www.verifone.com>), a wholly owned subsidiary of Hewlett-Packard Company, is the leading global provider of secure electronic payment solutions for financial institutions, merchants and consumers. VeriFone has shipped more than six million electronic payment systems, which are used in over 100 countries. VeriFone, the VeriFone logo, vPOS are either registered trademarks or trademarks of VeriFone, Inc., in the US and/or other countries. All other company names, brands or products may be trademarks or registered trademarks of their respective owners. VeriFone and Partners

To bring merchants complete, secure and convenient solutions for online payments, VeriFone has formed relationships with financial institutions, service providers and other Internet commerce leaders including HP, **BroadVision**, iCAT, Information Builders, INTERSHOP, Microsoft, Open Market, Oracle and VeriSign.
About vPOS Hosting Software Value Proposition

VeriFone's vPOS Hosting Software provides ISPs with a comprehensive suite of Internet payment software and the ability to provide hosting capabilities for multiple merchants. vPOS 4.0 enables ISPs to directly control the quality of their Internet payment service while also generating recurring revenue. Additional value propositions include:

- support of both Secure Sockets Layer (**SSL**) and SET **Secure Electronic Transaction** payment security protocols
- joint marketing opportunities with VeriFone, HP and leading financial institutions
- potential to leverage VeriFone's established relationships with financial institutions worldwide
- integration with Internet products from leading software companies

About VeriFone vPOS Hosting Program

To provide complete Internet commerce solutions, hosting services need to offer bona fide Internet payment. This payment software must facilitate the processing of financial transactions over the Internet safely and conveniently for both consumers and merchants. To meet these requirements, VeriFone is now offering the vPOS Hosting Program, which includes a comprehensive set of products and services.

- vPOS Hosting Software provides access to major financial institutions throughout the world and communicates directly with financial institutions to obtain authorizations and process payments using both the **SSL** and SET security standards.
- VeriFone also offers a broad range of services specifically for ISPs, including integration and technical support, training courses, merchant lead generation programs, VeriFone Exchange developer program membership and on-going communications and programs.

About vPOS 4.0

VeriFone vPOS 4.0 merchant payment software allows hosting services to offer Internet merchants the same reliable and secure payment capabilities that "physical world" merchants already receive from VeriFone. vPOS supports a full range of standard transactions including authorization, credit, reversal, void and capture - as well as a number of specialized features such as recurring payment, installment payment, split shipment and purchase cards. vPOS supports both **SSL** and SET security protocols. In addition, vPOS Hosting Software enables the hosted merchants to remotely manage their financial transactions and generate reports - at their convenience - using their web browser.

Pricing

U.S. pricing for the vPOS Hosting software is comprised of a one time site license fee and monthly per merchant fees. U.S. pricing starts at \$6,395 for the site license and \$10 for the monthly per merchant fees.

Availability

vPOS Hosting software for the HP-UX and Windows NT platforms is available today. vPOS software for the Sun Solaris platform will be available calendar Q4 1998.

VeriFone, Inc.

VeriFone, Inc. (<http://www.verifone.com>), a wholly owned subsidiary of Hewlett-Packard Company, is the leading global provider of secure electronic payment solutions for financial institutions, merchants and consumers. VeriFone has shipped more than six million electronic payment systems, which are used in over 100 countries.

VeriFone, the VeriFone logo, vPOS are either registered trademarks or trademarks of VeriFone, Inc., in the US and/or other countries. All other company names, brands or products may be trademarks or registered trademarks of their respective owners.

SET Secure Electronic Transaction , Secure Electronic Transaction ,
SET and the SET **Secure Electronic Transaction** LLC design mark are trademarks and service marks owned by SET **Secure Electronic Transaction** LLC. Reproduction of any of these marks without the explicit written consent is strictly prohibited.
